# Preface

The TRUEMONARCH initiative is powered by patriots, pledge holders and sovereign Monarchs of the Ministry of Christ Church.

Ministry of Christ Church is a non-denominational and unincorporated church in the name of our Lord Jesus Christ.

A “Free Church” refers to a Christian church, a spiritual entity, that is intrinsically separated from the legal status as opposed to a “State Church”.

A Free Church does not define government policy, nor have governments define church policy or theology, nor seeks or receives government endorsement or funding for its general mission. It is unlicensed, unregistered, and unregulated by foreign governments.

A Free Church is under the Lordship of Jesus Christ and protected by God.

As stated in:

- King James’ Authorised & Holy Bible Version 1611
- 1st Amendment to the United States Constitution 1776 by We the People
- Executive Order 13798 Promoting Free Speech and Religious Liberty
- Executive Order 13926 on Advancing International Religious Freedom

We at TRUEMONARCH are passionate advocates for the disruption brought by token economies and blockchain technology. For that reason we are striving to create new ideas and concepts that serve to disrupt and decentralise government, central banking and corporate power to help bring about change and pave the way for a Golden Age of global economic prosperity and personal freedom.

The mission of TRUEMONARCH is to provide beneficial services and divine knowledge to help free humanity from legal and financial enslavement and derail the agenda led by the powers that be to control and exploit living souls across the planes through nefarious means.

By tapping into the heart of Admiralty Maritime Law, TRUEMONARCH strives to beat the monster at its own game.

With **PARK**MONARCH, UCC Sovereignty Program, White hat Roundtable Network and the TRUEMONARCH Micro Nation Initiative, the TRUEMONARCH project umbrella ensures public access to tangible, lawful methods within the confinements of the current authoritarian world order, that enable people here and now to rise as true Monarchs and sovereign beings under God's protection, while enjoying empowering, beneficial services that concurrently facilitates the liberation of mankind from its Luciferian manipulators.

Consequently the TRUEMONARCH token eco-system is promoting the mainstream adoption of blockchain technology and a tokenised, decentralised future of society.

# Executive Summary

This Whitepaper gives a thorough introduction to the projects and forces behind TRUEMONARCH and explains how the application of powers based on the relationship and interconnectedness between The Bible, Common Law, Maritime Law, blockchain technology and tokenised communities will provide remedy against totalitarianism and benefit initiatives seeking to decentralise power and liberate and empower the individual as well as the people.

With the tokenisation of and marriage between blockchain technology, Private and Common Law based governance, TRUEMONARCH provides a safe place where Godly souls can rest assured that their freedoms, family and material holdings are safeguarded and their creating life-force can be claimed, rewarded and exchanged for decentralised, asset-backed value.

Through Stellar Blockchain Smart Contracts, the TRUEMONARCH token offers

- Ultimate protection of user identifiable data
- Super fast cross-border payment transactions (2-5 sec)
- Near to 0,0% transaction costs
- Access to token eco-system with a wide range of unique services
- Local and cross nation trade within all Micro Nation Initiatives
- Quantum Financial System compliancy
- ISO20020 compliancy
- Anti-Fraud and Clawback capability

For in-depth information about our blockchain integration, see the chapter **Our Technology**.

The TRUEMONARCH token (MONARCH) is the very medium and focal point around which a wide eco-system of service applications, Roundtable Networks, Micro Nation Initiatives and the Ministry of Christ Church Alliance evolve.

TRUEMONARCH serves a multi faceted purpose, the highest of which is to help facilitate circumstances and environments which can change perspectives and help prepare humanity for the coming of the Golden Age. In order for an individual to be able to expand and raise his or her consciousness a change of perspective is required.

TRUEMONARCH serves the purpose of awakening the individual to the truths and powers hidden within the word of God. The one true authorised Bible (KJV) which is based on Natural Law and Cosmic Law is the highest judicial authority in written form. All written laws are derivatives of the one true Bible and all subsequently applied laws are inferior to its authority. Any law that contradicts or prohibits the laws/rights of the Bible are per definition unlawful.

TRUEMONARCH serves the purpose of facilitating concepts, methods, applications, projects or initiatives that can help enlighten humanity to the truths, rights and laws of individual freedom, liberty and duty communicated through the Bible by our Lord Jesus Christ and at the same time help defeat, overrule or make obsolete any law or public authority initiative that has the intent or in reality prohibits or infringe upon these God given rights.

TRUEMONARCH serves the purpose of facilitating concepts, methods, applications, projects or initiatives that potentially bring the human mind, body and spirit in vibratory resonance with Christ consciousness.

This Whitepaper currently covers four projects powered by the TRUEMONARCH token which are all described in a brief overview format on the following pages.

#### Project 1 - **PARKMONARCH**

- New App: Join PARKMONARCH and avoid ever to pay another parking ticket! Sounds unbelievable? Your mind will be blown away - Read on!

#### Project 2 - TRUEMONARCH Micro Nation Initiative

- Kingsdale Castle in Denmark to become first tokenised Constitutional Common Law Micro Nation!

#### Project 3 - Uniform Commercial Code - Sovereignty Program

- Become a true Monarch! Learn how to claim your sovereignty from the state and set your self free from slavery.

#### Project 17 - White hat Roundtables

- TRUEMONARCH is part of the White Nobility Roundtable Network. The quest to salvage humanity from the Black Nobility Agenda has entered the phase of truth and openness.

# Project 1

**P**ARKMONARCH

## BRIEF OVERVIEW **PARKMONARCH**

## Teaser

“Avoid ever to pay another parking ticket with **PARK**MONARCH.

Sign up with **PARK**MONARCH and park your vehicle wherever you please within designated areas, without having to worry about paying a potential parking ticket.

For only \$2 a month **PARK**MONARCH accepts the legal liability pertaining to the payment of any parking ticket you may receive from any parking company or government institution. Read on!”

## Background and problem

During the past two decades governments and corporations have made parking related fees a multi billion dollar industry. The profits have become so lucrative, that the consideration for the financial burden placed on the population far surpasses any justifiable proportionality.

This goes for the ever expanding zones and areas that become subject to parking taxation as well as the ever increasing hourly fees and exorbitantly high parking penalties being issued every day in almost every municipality all over the world.

Under the guise of pollution, climate change, population density, Co2 emissions, et cetera, the profit makers blatantly utilise any politically correct yet non tangibly topic to justify and to vilify anyone trying to rebut or criticise the price policy or expansion strategy of the “Parking Cabal”.

As with many authoritarian measures, the beneficiaries behind the policies know that the memory of a population always proves to be extremely short.

The time when parking and speeding tickets where issued based on reasonable justification and common sense are long forgotten.

The implications by which the parking polices of modern day affect the average car owner on a daily basis, wether financially, emotionally or their God given right to freedom of movement are disproportionately alarming.

## Solution 1

As with most other “legal penalties” seemingly to have been brought into effect by various governments and institutions post WWII, they are most often unlawful and only redeemable as

long as the person in question is unaware of the legal scheme and thus willingly comply to enter the proposed contract and pay the penalty.

By declining to enter into contract under the UCC (Uniform Commercial Code) anyone knowledgeable and well fared enough in Maritime Law will be able to reject any parking ticket without any further consequences.

## Solution 2

The succes of a parking company relies predominantly on the presumption that people willingly or under threat of penalty pay the parking ticket.

Under the law, parking companies are required to perform certain administrative and practical procedures every time a car owner disputes a parking ticket. This procedure is very time consuming.

An administrative employee has to open a new case file, debrief the parking warden, submit evidence such as photographs, write up reports and engage in written correspondences with the car owner.

If the case goes to court additional costs will apply for legal counselling and the parking company would have to pay the court a certain upfront fee to bring their case forward. Since most people pay their parking tickets or at least after their complaint has been denied, parking companies only need to have one or a couple of employees handling the cases.

## Kicker

Imagine if a parking company suddenly were to receive hundreds or thousands of parking ticket complaints and refusals of payment every single day.

Imagine if say every second parking ticket were challenged by the car owner. How many administrative employees would be required to handle such a workload? How much would that cost the parking company?

Imagine if every one of these cases were handled by a team of UCC experts not only challenging the validity of the parking ticket, but based on UCC contract law imposed a penalty fee on the parking company for entering into contract with the car owner. How much would that cost the parking company?

Imagine how heavy a burden the increase of complaints would have on the court systems. Parking tickets are considered low level cases and of low importance, but would take up a disproportional amount of the courts' time.

How would this affect the processing time of all court cases?  
 What economical consequences would it have for the authorities?

Imagine if every time a court takes on a case of a person refusing to pay a parking ticket, that the legal representative of the car owner would also challenge:

- Whether the parking company can prove to have entered into contract with the car owner
- Whether the validity of the actual court case is lawful, by demanding the judge to prove that there actually exists a law that is lawfully signed and in effect. (Which there is not).

How long before judges would begin to dismiss the cases?  
 How long before the parking company would go bankrupt?

## Business Case

“Avoid ever to pay another parking ticket with PARKMONARCH.

Sign up with PARKMONARCH today and park your vehicle at any designated parking space without having to worry about having to pay the parking ticket.

For only \$2 a month PARKMONARCH accepts the legal liability pertaining to the payment of any parking ticket you may receive from any parking company or government institution.”

NB: Parking of a vehicle must be within designated areas or parked in a manner by which the car does not obstruct the traffic, inflict potential harm. Infringe on private rights or cause nuisance.

### How does it work from the user's end point?

#### Step 1

The user search for and download the web application **PARKMONARCH** via Google Play or Apple's App Store.

#### Step 2

The user is asked to take a picture of their driver's licence and the car registration paper using their smartphone camera and to submit the photos inside the **PARKMONARCH** app along with their name and email address. (Name on driver's license will have to match either user or owner on car registration)

### Step 3

Next the user is asked to choose between 3 different subscription options:

#### Option "ONE"

Add 1 license plate number for 12 months for a total of \$100

#### Option "FAMILY"

Add up to 4 license plate numbers for 12 months for a total of \$250

#### Option "BUSINESS"

Add unlimited licence plate numbers for \$60 per license plate per year.  
(Minimum 5 license plates)

Receive a 50% discount on all dollar prices by purchasing your subscription using **PARKMONARCH**'s own crypto TRUEMONARCH (#MONARCH) instead of FIAT currency.

### Step 4

User signs the terms and guarantee agreement and effectively transfers legal liability of the ticket to **PARKMONARCH**.

This agreement guarantees the user that any potential claims pertaining to a parking ticket is handled and covered by **PARKMONARCH** as long as the user follow the simple procedure in step 5.

### Step 5

The user must perform the following actions if given a parking ticket:

A: Open the **PARKMONARCH** App.

B: Press the "Here I am" button to have the app take a snapshot of the vehicle's geo location.

C: Take a picture of the actual parking ticket and submit it to the **PARKMONARCH** app.

D: Take a picture of the vehicle 10 feet from the rear position, 10 feet from the front position and 10 feet from the side (profile) position. Submit the 3 pictures inside the **PARKMONARCH** app. (See example of pictures)

E: Continue to enjoy your day. **PARKMONARCH** will send you a confirmation once the parking company has dropped or lost their (illegal) claim or your ticket (and potential accrued expenses) has been paid in full by **PARKMONARCH**.

## How does it work from **PARKMONARCH**'s end point?

### Step 1

All users with active subscriptions are registered on the **PARKMONARCH WHITE LIST**.

### Step 2

All parking companies and municipalities are being informed electronically and by recommended letter about the following:

A: The existence and purpose of **PARKMONARCH** and who **PARKMONARCH** represents (**PARKMONARCH WHITE LIST**).

B: All parking companies and municipalities are then being informed that according to current law (Uniform Commercial Code) and upon entering into contract with each of the following entities (**PARKMONARCH WHITE LIST**) they accept to pay an upfront fee of \$250,000 (TWOHUNDRED FIFTY THOUSAND AMERICAN DOLLARS).

C: Further more all parking companies and municipalities are being informed about their illegal activity and which laws their activity is in violation of and the list of points and actions that **PARKMONARCH** intend to pursue and fulfil in full on behalf of each of the entities on the **PARKMONARCH WHITE LIST**, including holding not only the companies and municipalities, but also the actual parking wardens as well as responsible directors personal responsible for any and all claims on behalf of each of the entities on the **PARKMONARCH WHITE LIST**.

D: The license plate numbers of the **PARKMONARCH WHITE LIST** is not directly visible, but can only be looked up by submitting an active license plate number on the **PARKMONARCH** app.

### Expected change of behaviour on behalf of the Parking Cabal

A: Relatively quickly and upon the acknowledgement of the existence of **PARKMONARCH** the parking companies and municipalities will have to choose between 10-100 doubling their staff and legal expenses with the risk of going bankrupt or ask their parking wardens to perform the below actions and checks before issuing a parking ticket.

B: Parking wardens are encouraged to download and install the **PARKMONARCH** app. Before issuing a parking ticket the parking warden are then able to look up the actual license plate in question and confirm whether it is on the **PARKMONARCH WHITE LIST**.

C: It is expected that parking companies and municipalities relatively quickly will order their parking wardens to look up and disregard any active license plate on the **PARKMONARCH WHITE LIST**.

D: It is expected that parking wardens relatively quickly will look up and disregard any active license plate on the **PARKMONARCH WHITE LIST** once it is acknowledged that they are being held personally liable for any and all illegal taxation of another man or woman.

### Financing of the **PARKMONARCH** app and activities

Anyone, regardless of country, religion, gender, race, culture and political affiliation can agree on one thing and that is: “THEY DISLIKE RECEIVING PARKING TICKETS”.

The support for the **PARKMONARCH** project has even in its infantile phase received overwhelming support from the public and with good reason: “there is nothing like it on the market”.

**PARKMONARCH** is introducing several user generated revenue streams to securely uphold all guarantees and to develop and expand the initiative to markets around the globe.

A: The creation and launch of the TRUEMONARCH token (MONARCH) on the Stellar Blockchain Network is expected to raise more than enough capital to both fund the **PARKMONARCH** project development as well as to create and maintain a substantial “Buffer Bank” to secure any and all guarantees made to its users.

B: Regardless of the success of the initial coin offering of the TRUEMONARCH token, revenue projections of the **PARKMONARCH** in-app subscription based products, show even by conservative measures, very convincing expectations as to the ability to cover all project related expenses, maintenance and expansion.

## Conclusion

The **PARKMONARCH** project is a one of a kind idea. It is simple, powerful sympathetic and easy to understand. It covers a huge demand in almost every single country and every single market around the globe. The project’s potential is enormous and can easily branch into new areas that pose the same type of problem and needs the same type of solution.

# Project 2

## BRIEF OVERVIEW

TRUEMONARCH  
MICRO NATION INITIATIVE

## Teaser

A steering group of Sovereign Common Law scholars and 25 patriotic, awakened, entrepreneur families take it into their own hands to bring about a society that resembles the promises of GESARA and the prophesied Golden Age.

Founded on the crypto currency TRUEMONARCH and a self-sustaining community model and eco-system, "Kingsdale" is the first "copy and paste micronation framework" out of many to spawn in the coming years.

The creation of a sovereign and lawful micronation serves to wake up the sleeping populaces and inspire the newly awakened to not just wait for military intervention or leaders like President Trump to remove the evil powers of the world and bring about relief and prosperity, but to turn to the words of God and rise in His image as the free, sovereign monarchs we are all born to be.

## Foreword

by Mathew Dekay

"What you are seeing and hearing right now is nothing but a dream. You are dreaming right now in this moment. You're dreaming with the brain awake.

Dreaming is the main function of the mind, and the mind dreams twenty-four hours a day. It dreams when the brain is awake, and it also dreams when the brain is asleep.

The difference is that when the brain is awake, there is a material frame that makes us perceive things in a linear way. When we go to sleep we do not have the frame, and the dream has the tendency to change constantly.

Humans are dreaming all the time.

Before we were born the humans before us created a big outside dream that we will call society's dream or the dream of the planet.

The dream of the planet is the collective dream of billions of smaller, personal dreams, which together create a dream of a family, a dream of a community, a dream of a city, a dream of a country, and finally a dream of the whole humanity.

The dream of the planet includes all of society's rules, its beliefs, its laws, its religions, its different cultures and ways to be, its governments, schools, social events, and holidays.

We are born with the capacity to learn how to dream, and the humans who live before us teach us how to dream the way society dreams.

The outside dream has so many rules that when a new human is born, we hook the child's attention and introduce these rules into his or her mind.

The outside dream uses Mom and Dad, the schools, and religion to teach us how to dream.

Attention is the ability we have to discriminate and to focus only on that which we want to perceive.

We can perceive millions of things simultaneously, but using our attention, we can hold whatever we want to perceive in the foreground of our mind.

The adults around us hooked our attention and put information into our minds through repetition.

That is the way we learned everything we know.

By using our attention we learned a whole reality, a whole dream.

We learned how to behave in society:  
what to believe and what not to believe;  
what is acceptable and what is not acceptable;  
what is good and what is bad;  
what is beautiful and what is ugly;  
what is right and what is wrong.

It was all there already – all that knowledge, all those rules and concepts about how to behave in the world.

When you were in school, you sat in a little chair and put your attention on what the teacher was teaching you. When you went to church, you put your attention on what the priest or minister was telling you.

It is the same dynamic with Mom and Dad, brothers and sisters: They were all trying to hook your attention.

We also learn to hook the attention of other humans, and we develop a need for attention which can become very competitive.

Children compete for the attention of their parents, their teachers, their friends. "Look at me! Look at what I'm doing! Hey, I'm here."

The need for attention becomes very strong and continues into adulthood.

The outside dream hooks our attention and teaches us what to believe, beginning with the language that we speak.

Language is the code for understanding and communication between humans. Every letter, every word in each language is an agreement.

Once we understand the code, our attention is hooked and the energy is transferred from one person to another.

It was not your choice to speak English. You didn't choose your religion or your moral values - they were already there before you were born.

We never had the opportunity to choose what to believe or what not to believe. We never chose even the smallest of these agreements.

We didn't even choose our own name.

As children, we didn't have the opportunity to choose our beliefs, but we agreed with the information that was passed to us from the dream of the planet via other humans.

The only way to store information is by agreement.

The outside dream may hook our attention, but if we don't agree, we don't store that information.

As soon as we agree, we believe it, and this is called faith. To have faith is to believe unconditionally."

## Background

### **Perspective**

The dream that our forefathers had for a future society has been hijacked, twisted and told back to us with wickedness in mind.

What we believe is democracy is corporatism and technocracy.

What we believe is freedom is slavery.

What we believe is free will is programming.

What we believe is prosperity is mere surviving.

What we believe is technology is mind control.

What we believe is making us healthy is killing us.

What we believe we are meant to do we are not.

What we believe is God is Evil.

What we believe is Evil is Fake.

And if you say this.. you are nuts.

The dream of our forefathers was about avoiding a future in the hands of the Black Nobility.  
The so-called Dark Elite.

Their ambition was for humanity to be living in harmony in Natural Law.  
To live in freedom and for people to do whatever they wish to do to attain happiness and prosperity as long as it does not infringe upon or inflict harm on another sentient being and it's property.

It was about understanding the esoteric truths of the Bible, not for the words of the Bible to be manipulated and to be used to control people and instil fear and cause ignorance.

Over the past two generations society as we know it has programmed modern day humanity to disregard the connection to God and the Truths of the Holy Bible as mere folklore and perceive it as something only cherished by wacko cults or mediaeval thinking minorities.

However, in recent years, the Great Awakening has led to the exposure of the powerful elites and their efforts towards centralising power and control to further their nefarious agenda.

It has been done in such a revealing fashion, that many people have realised that it is no longer permitted to exercise free will, contradictory opinion or to act outside society's framework of political correctness.

Society's dream is no longer to be influenced by individual dreams and opinions unless they are in conjunction with the paradigm promoted by the mainstream media. This is the new norm authorities want people to accept.

This project serves to show people that there is another way. Humanity is at a crossroad and it is up to the individual man and woman to choose which timeline they want to live, what reality they wish to experience.

The TRUEMONARCH Micronation Initiative is one of the beacons of light that serves as a stronghold of inspiration in a sea of dead as time draws closer to the Harvest. The golden ticket out of the matrix and onto the timeline of Christ consciousness is issued within each of us through the very choices we make or abstain from making.

Are the choices you make 51% Service to Self?  
Or are they more than 51% Service to Others?

When you invest in Bitcoin you support the utility and services of that coin.

By supporting the TRUEMONARCH token you support the utility of a much different asset and the efforts of Service to Others that its utility facilitates.

Make a conscious choice that aligns with your own values and the reality you want to see unfold.

## The Acquisition of “Kingsdale”

There is something rotten in the state of Denmark.

The famous words of the character Marcellus in the Shakespeare Act “Hamlet” refers not to the nation, but to the (mental/spiritual) state of Hamlet, prince of Denmark. Hence the intentions of the false monarchs (black nobility/luciferian bloodlines) that at the time hijacked the world’s oldest monarchy as part of the Rothschild cabal takeover of the European monarchies.

The philosopher behind the pseudonym Shakespeare, Francis Bacon, was also a close advisor to King James, who later gathered all holy scriptures from the burned down library of Alexandria and else where in Europe to create the one true and authorised Bible - The Holy Bible KJV (King James version)

It is prophesied in the Bible that when the true king returns (Christ) the false kings will step down.

The true king is not the return of Jesus Christ in flesh and blood as the masses are led to believe by the established (black nobility) church.

It is the return of Christ consciousness.

The return of the king within - YOU - by expanding and raising your state of consciousness to match the frequency of Christ consciousness and become your own true monarch, the co-creator of your own reality.

This state of being is achieved by activating the pineal gland (pine cone shaped gland) inside the human brain and thus the activation of the “crown” chakra, which will set the soul free from the body.

The war between good and evil is fought over the secret potential held within this cone shaped portal to ultimate freedom of creation.

Game of Thrones is a game of crowns and is indeed real - and you are part of it.

The road to take back your crown, begins in the mental realm within your mind as well as in the physical realm on the fields of Sealand, Denmark.

Kingsdale or “Kongsdal” (Danish ie.) Castle is situated on Sealand in the country of Denmark.

The Castle is currently up for sale at a price of DKK 230M (\$37M)

According to the sales prospect the estate is sitting on 782 aches of land (7+8+2= 17).

Kingsdale will serve as land mass for the first micronation in the TRUEMONARCH Micronation Initiative to establish a TRUEMONARCH currency eco-system and common law based society to break free from the false monarchs and their debt-based maritime law society.

## Action Plan Overview

### *Step 1*

Funds are raised through the ICO of TRUEMONARCH (#MONARCH)

### *Step 2*

Depending on the amount of funds raised via the ICO the purchase of Kingsdale will happened immediately upon meeting the target. In case the target isn't made, the purchase will happened once the target is met through the alternative revenue streams such as PARKMONARCH project.

### *Step 3*

Once the purchase is complete the current personnel, activities, production types, buildings and properties of Kingsdale will undergo an overall assessment to transition from conventional agriculture and forestry to organically, bio-dynamically and permaculture based produce.

### *Step 4*

Industrial scale production will be downscaled to support the planned self-sufficiency model for the Kingsdale inhabitants as well as to support the surrounding local communities with fresh produce. All produce will be traded in the TRUEMONARCH currency.

### *Step 5*

Part of the main Castle as well as machine stations, barns and farm buildings will undergo preparations for alternative usage such as for: Holistic schools, Tiny House Production, Street Food Villages, Restaurants, Boutique hotels, etc: All services are open to the public to visit, attend, use and purchase using TRUEMONARCH.

### *Step 6*

25-40 like-minded families with different skillset will apply to settle and work on the estate. Some will inhabit the current property buildings and some will inhabit the first Tiny Houses to roll off the supply line.

### Step 7

Families can either fully work within the Kingsdale domain or outside of Kingsdale in the public domain. People that live on the Kingsdale estates receives TRUEMONARCH for which they can purchase produce, water, pay for electricity and other utilities at an extremely low cost.

People that work within the Kingsdale domain receive TRUEMONARCH as payment with salaries equal to 3 times the salary of the same work-position in the outside society and are only required to put in 20 hours a week.

### Step 8

A second token is being introduced to represent “Seniority” within the TRUEMONARCH Micro Nation Initiative.

Seniority tokens represents: “voting value” as well as “equity value”.

For every day a settler lives in Kingsdale they earn seniority tokens.

#### **Voting value**

A seniority token represents a vote.

However the token have “voting weight” with a build in decay.

This means a seniority token received a year ago has less voting weight than a token received yesterday.

This has a number of implications.

Ex: A settler who has been living in Kingsdale for 1 year holds more influence power than a newcomer. However over time their influence equalises.

Ex: A settler who lived in Kingsdale for 10 years and moved away still holds power to influence the community. However over time that influence diminishes.

#### **Equity value**

A seniority token represents a value.

A settler cannot own a piece of land in Kingsdale and cannot own a house if it is build on a foundation. However, their seniority tokens represents value equal to the value of a piece of land or house.

This means that if a settler wants to leave the community for good, they can trade-in their seniority tokens. (Somewhat similar to selling their property) or they can hold on to their tokens for later and sell at a later stage when price is maybe more lucrative.

It also means that if a settler exhibits criminal and unacceptable behaviour to the other settlers they can ultimately (via Common Law courts) vote the ill behavioural settlers “out of Kingsdale” in which case the individuals will be forced to move. (Tiny houses can be trucked away.)

However the seniority tokens still enables “outcasts” to receive their seniority’s worth.

#### *Step 9*

Capitalistic abundance is a keyword for the TRUEMONARCH Micronation Initiative.

Each year the total profits of all micronations will be divided between all inhabitants regardless of nation according to seniority (See step 8).

Everyone gets to reap the profits of their labour and that of their fellow monarchs. This also ensures that the interrelations between micronations are productive and supportive.

#### *Step 10*

Kingsdale is open to the outside world and hosts year round events and fairs to promote and inspire people to open their minds as to how life can be lived and to question the status quo of the outside society.

FIAT currencies can be used in all food markets, cafes, restaurants, workshops, etc inside Kingsdale, however, if tourists choose to pay with TRUEMONARCH they receive a 50% discount compared to FIAT on all Kingsdale produce. This will promote TRUEMONARCH adoption by all tourists.

## Conclusion

The TRUEMONARCH Micronation Initiative is a precursor concept for GESARA (Global Economic Security and Reformation Act), which serves to alter old paradigm perception and prepare populations for the upcoming changes of global and centralised governance towards decentralised, local governance and to reintroduce core family values and holistic lifestyle, with a focus on communal interaction and natural abundance.

The recalibration of the collective human psyche and mind serves to pave the way for a civilisation based on Natural law and with an ability to tap in and stay synchronised with higher frequency energies and states of consciousness.

## Project 3

### BRIEF OVERVIEW How to become a True Monarch UCC Sovereignty Program

## Teaser

Get access to the Elite's best kept esoteric and lawful secrets.

Learn how the matrix is constructed and governed to keep mankind spiritually, financially and contractually enslaved.

Learn how to break free from financial and judicial bondage and how to safely navigate the matrix as a free soul and sovereign monarch.

Learn how to take control of your straw man (social security number).

## Background

Most people have no clue that the laws that govern modern society is a nefarious and well thought out scheme to create a real life prison system to keep humanity enslaved in (unlawful) debt.

People think their life is suppose to be this way and that what they experience is a free and benevolent life.

Most people think that the current laws that govern society are real and made to serve the people.

Most people have no clue that by their parents' signing of their birth certificate they are assigned with a social security number and perceived as dead, lost at sea and the property of—and by the state.

Most people have no clue that their social security number is also an actual account number and considered a bond, which is being traded on the stock exchange at a value equal to the output of their creative life-force and that of their ancestors and that it is linked to a corresponding trust designated as the Cestui Que Vie Trust originally created by the false Church of the Vatican to hold unclaimed Estate and currently administrated by the IRS (US Internal Revenue Service).

Most people have no clue that technically the term “person”, is a reference to the entity of a specific social security number and the trust that it represents - as oppose to a reference to a specific human being. In everyday speech this entity is referred to as the “straw man”.

Most people have no clue that the controlling institutions of society, whether it be the established church, governments, banks or police are utilising the syntax law of UCC/Maritime law to contractually entrap people and create the illusion, that the free body and soul of every human being are intrinsically adjoined with the Vatican constructed “personal straw man”, in order for these institutions to perpetually leverage their debt scheme and capitalise on everyone’s individual creative life force via the Cestui Que Vie Trust.

Most people have no clue that they have a God given right to separate themselves from their straw man and claim control over this entity and the value it represents in the Cestui Que Vie Trust.

Most people have no clue that their countries, government and police in recent history have been transformed from Common Law based, sovereign entities, formed and controlled by and for the people, into Maritime Law based corporations with EIN and TIN numbers as part of a silent take over of control by the dark elite.

These institutions no longer serve the people, but as corporations they serve their investors and shareholders. Technically, that makes populations the products and employees of these corporations.

However, these corporations can only influence power over humanity as long as people identify their living, breathing bodies with their individually assigned straw man (personal social security number).

Once people start separate themselves from their straw man, the illusion falls apart along with the pillars holding the matrix.

Most people get shocked when they first hear the statements above and disregard them as nonsense, simply because they cannot comprehend the scale of the deception.

Meanwhile those who walk the right path of sovereignty, live in freedom, abundance and harmony under God’s protection.

In recent decades people have been manipulated to disregard the bible and the concept of The Holy Spirit, Jesus Christ and God as medieval folklore, extremist cultism or in the best case “old school religion”.

This has been done to purposely keep people from discovering the truth about who and what is controlling the planet and to prevent people from finding the spiritual key and lawful solution as to how to free themselves and rise as true, sovereign, co-creating monarchs.

A scenario that would initiate a great awakening and purge the dark elite from their positions of power and reign.

## The solution

The TRUEMONARCH token is powered by Ministry of Christ Church and is used as a utility token and a means of payment throughout all the micro nation projects and freedom initiatives initiated by the TRUEMONARCH.

The main purpose of TRUEMONARCH and Ministry of Christ Church are to awaken humanity to the truth and to equip the individual soul with sufficient knowledge to expand their individual consciousness to better adapt to the frequencies of the incoming energies of the Golden Age.

But also to give every soul “here and now” tangible solutions and instruments to immediately free themselves from the tyrannical system and the evil powers controlling it and to protect their loved ones and belongings from authority overreach, property seizure and illegal capture and adoption of children.

Based on in depth spiritual, esoteric, judicial and lawful knowledge deriving from the holy scriptures and law doctrines constituting the legal framework of society, the scholars of Ministry of Christ Church present never before revealed solutions on how to free the individual soul from the matrix - all kept hidden in plain sight by the dark elite.

Over centuries the dark elite has managed to infiltrate first the nobility bloodlines and then the governmental civil services and thus the legal systems of all countries around the globe.

They have succeeded in suppressing and switching national or constitutional law based on The Common law (law of the land) with regulations, bills and executive orders based on Admiralty Maritime Law (Law of the sea) enabling a silent takeover of humanity through International commercial law and contractual syntaxes, better known as UCC (Uniform Commercial Code) and published into the Public Domain by the privately owned organisation UNIDROID.

Most lawyers only just touch the surface on UCC and are completely unaware of its origin:

Statutory Law -> UCC -> Admiralty Maritime Law -> Common Law -> King James Bible -> Natural Law -> Cosmic Law.

Cosmic Law dictates certain esoteric truths and universal rules that all laws have to adhere to.

One of these laws are: The Law of Free Will.

Even the Devil and thus the dark elite play by the Cosmic laws. They are all aware of the esoteric and karmic consequences of not doing so.

However, governments and authorities go to great lengths to cover and hide the law of free will and often manipulate information, create illusions and false flag scenarios to make populations willingly accept death, control and loss of freedom - even though people can choose not to accept this at anytime.

Currently the global “corona restrictions” are a prime example of this.

People think they have to wear masks, get vaccinated and adhere to regulations because the law or authorities says they must. This is not correct.

In fact the announced corona restrictions around the globe all include one more paragraphs that exempt people from adhering to any and all restrictions without requirement of documentation. Period.

In other words, by actively exercising will and intent anyone can exempt from being forced to do anything against their will.

Many low-level authority figures do not inform, know about or respect the exemptions, because they have been brainwashed by the media and their institutions, but any court eventually will and do (have to).

However, Ministry of Christ Church has developed an “all in one” True Monarch Solution, that is fully recognised by the laws of the matrix that protects people from being subject to illegal taxation, fees, abuse and restrictive regulations.

Instead it equips the soul with an “Armour of God” - a private, spiritual trust entity and golden ticket out of the matrix and into the light as a sovereign and free monarch.

The components of this solution has been used separately and in conjunction with each other by the elites for centuries, to steer free of conflict and suffering and to protect and maintain wealth, freedom and prosperity.

This knowledge is all laid out in the King James Bible as well as in numerous spiritual and sacred scriptures and doctrines found and practised in holy orders and mystery schools around the earth, throughout history.

However due to greed, lust of power and wickedness, the dark elite have managed to control humanity’s level of knowledge and keep a tight lid on the esoteric truths and insights that would lead mankind to discover the true recipe of terrestrial freedom, spiritual enlightenment and karmic salvation.

## Ministry of Christ Church

Ministry of Christ Church is a Free-Church and as such it is independent from the established Church and any government influence.

Ministry of Christ Church does not preach religion.

It implores people to study and understand the holy bible (KJV) and practice the word of God. This can only be a private exercise and experience, since God is an energy fractal (soul) within every human being to be stimulated or “reawakened and activated” while the temporal church of flesh and blood is alive.

We know it to be true that the return of the lord of lords, king of kings and one true saviour is the inner awakening consciousness journey of our divine selves, rising to become one with Christ consciousness.

The return of the King within is the manifestation of the heavenly Kingdom within and thus without.

Jesus Christ showed humanity this a long time ago, however humanity chose Barabbas instead. (The material world/the outwardly over the inwardly/spiritual world)

## Business Case

## Conclusion

Ministry of Christ Church is not an instrument of the established Church. It is a Free-Church. Ministry of Christ Church does not preach religion. It implores people to study and innerstand the holy bible (KJV) and to practice the word of God.

We believe this can only be a private exercise and experience, since God is an energy fractal (soul) within every human being that needs to be “reawakened/activated” while the temporal church of flesh and blood is alive.

We know it to be true that the return of the lord of lords, king of kings and one true saviour is the inner awakening consciousness journey of our divine vibrational selves, rising to become one with Christ consciousness.

The return of the King within is the manifestation of the heavenly Kingdom within and thus without.

Jesus Christ showed humanity the path to salvation a long time ago, however ultimately humanity chose Jesus Barabbas instead and thus the pursue of heaven on earth via the outwardly, material world over the inwardly, spiritual realm of the self.

Ministry of Christ Church is working diligently to awaken mankind from the hypnosis of ignorance and misguidance deliberately imposed by the children of darkness and the powers that be and to offer real life and tangible solutions to set humanity free from bondage both judicially and spiritually.

The birth of the MONARCH token paves the way for all TRUEMONARCH initiatives to be manifested independently from the Vatican controlled fiat currencies and thus without the use of dark energy.

The purchase, the holding, the transfer, the exchange and the very mentioning of the MONARCH token are actions that actively support the cause of awakening and freeing mankind from bondage and tyranny of the dark elite - the false monarchs.

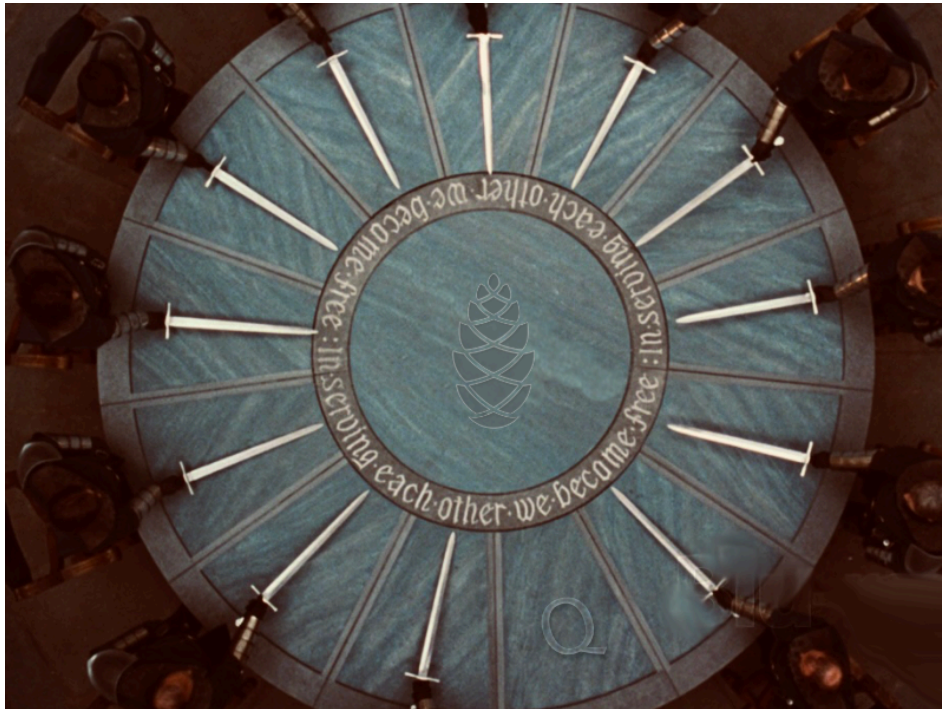

“When the true king returns, the false kings will step down”

“The true king” is mankind - you!

By the inner selfrealisation of kingship and the outer claiming of sovereignty humanity are on the path to ascension through Christ consciousness one true monarch at a time.

Godspeed,

## BRIEF OVERVIEW

### White hat Roundtable Network

White Nobility Northern Europe

## Teaser

US Military supported White Nobility Grand Duke of Northern Europe territory take on the Dark Elite liberating one municipality at a time through extensive patriot Roundtable network, counting more than 50 roundtables in Northern Germany and Denmark alone.

## Background

The tyrannical regime of the black “nobility” is coming to an End. For more than two millennia the dark forces have been enforcing their anti-human and especially anti-feminine negativity through certain ‘hand’-picked Elite families – commonly known as black nobilities.

For centuries the nefarious conducts of this Dark Elite were counterbalanced by the less known and much fewer White Nobility families, harnessing their powers directly from the divine Creator and thus being an earthly relay station for the Light and of the Light.

The Dark Elite operate from a point of no-light and totally lovelessness and so they do not deviate from their evil intent and agenda to keep their domain in a state of low frequency vibration.

However, Earth is re-entering the cycle of sacred feminine energy, the encompassing, loving compassion of Mother Mary, life giving in all its magnificent forms - gaining influence on equal terms with the sacred masculine - and when these two non-separate forces re-enters unity all old wounds heal and re-instates balance in the World.

In Europe and Scandinavia the White Nobility families are limited to just a few survivors of the the heinous attacks throughout the centuries of overbalanced masculine energy.

In modern history this battle of opposing forces has been fought mainly behind the scenes or through proxy wars, however, in recent years White Nobility figures and White hat allies have

been stepping forward and shun a light into the dark corners of the world, revealing both the draconian overlords, their minions, the illusory fabric of the matrix and its sinister underworld.

For obvious reasons the few remaining White Nobility heirs have been kept under close protection and secrecy until their time were due to step forward and fulfil their divine purpose.

One of the remaining heirs of the White Nobility family bloodlines, is his Royal Holyness Grand Duke of Mecklenburg and Vorpommern and heir to the throne of Prussia, Friedrich Maik.

### **Story of Grand Duke Friedrich Maik**

In early spring of the Lords year 1969 a baby boy of the Light came into existence in the North German region of Mecklenburg - but to protect him and his important life mission, his identity was switched to that of a recently diseased brother and he was "adopted" and raised by selected White hat care takers.

Less than a decade ago Friedrich Maik was made aware of his true identity and family lineage and his life's new purpose, should he accept his rightful title of Grand Duke and heir to throne of Prussia and the inherited plan for his fate and Grand Duchy.

The day after he accepted his destiny and claimed his rightful position and the head of his White Nobility family, his care takers, the people he had come to know as his mother and father committed suicide (for yet undisclosed reasons).

Since then everything else is history.

Grand Duke Friedrich Maik is considered a top figure within the Major Arcana of the Alliance. He has openly declared his affiliation with President Donald J. Trump and is actively and very vocally calling out the Black Nobility and their Cabal minions.

He is constructively going against the globalist agenda on multiple levels and has officially declared the independence of his sovereign Grand Duchy region of Mecklenburg and Vorpommern from the Federal Republic of Germany.

He is returning Castles and Noble Estates back to the people for beneficial use of common good amongst numerous other initiatives that mutually heralds the dawn of the Golden Age. .

Currently Friedrich Maik is under full protection by the Alliance and besides his personal US Marine detail more than 6.000 US Marines are stationed in his Duchy per his authority .

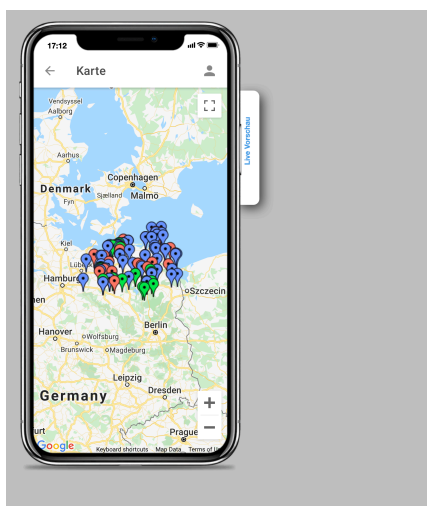

## Roundtable Network

The White Nobility Roundtable Network directly under Grand Duke Friedrich Maik consists of thousands of patriots, pledge holders and Godly souls working diligently in favour of our Lord Jesus Christ and God's true intent for a free and sovereign mankind under Natural and Common Law.

By a reverse infiltration strategy, Friedrich Maik has managed to establish local White hat Roundtables with an ever-growing ripple\* effect, purging globalist and cabal minions from local city councils and positions of power by means of pure communication and information sharing to the local populace about the Great Awakening and the goodly and Godly purpose of local governance and individual sovereignty.

Ministry of Christ Church and TRUEMONARCH is part of the White Nobility Roundtable Network as well as part of one seven seat Roundtable that includes his Royal Highness Grand Duke Friedrich Maik as well as two international military officers and influential personalities and scholars of the European Esoteric Freedom Movement.

Funds raised from the crowd sale of the TRUEMONARCH token is going to further seed, establish and expand the White Nobility Roundtable Network in other countries around the globe and further the Great Awakening of humanity as part of the preparations for the release of information, knowledge and technology taking place prior to and after the Event.

# Our Technology

The TRUEMONARCH token; “MONARCH” is based on the Stellar Blockchain Technology for a number of reasons, the most important being that Stellar plays an inherent role as the cross-border payment component of the IBM Hyperledger in the soon to be launched **Quantum Financial System** and as such is fully compliant with the ISO 20020 standard protocol.

TRUEMONARCH is in full support of the Quantum Financial System and thus have chosen to build the TRUEMONARCH token eco-system upon a ISO 20020 compliant and regulated partner.

More so the Stellar Blockchain Technology provides valuable utility for the many purposes of the TRUEMONARCH token in relation to the projects and initiatives surrounding the TRUEMONARCH token eco-system.

## What is Stellar?

Stellar is an open-source, decentralised payment protocol that allows for fast, cross-border transactions between any pair of currencies. Like other cryptocurrencies, it operates using blockchain technology.

Its native asset, a digital currency, is called lumen (XLM). XLM powers the Stellar network and all of its operations, similarly to how ether (ETH) powers the Ethereum network.

## How does Stellar’s blockchain work?

Transactions that take place on the Stellar network are added to a shared, distributed, public ledger, a database accessible by anyone worldwide. In order to reach consensus on transactions so quickly and accurately, Stellar uses its own unique consensus method.

## How does Stellar's consensus method work?

Stellar's consensus method allows for fast and cheap transactions, with everyone on the network reaching agreement about transaction validity within a few seconds. Every participant (called a node) who helps add Stellar transactions to the global ledger chooses its own mini-network of other trusted participants that it agrees with.

As long as these mini-networks (called quorum slices) overlap, the overall Stellar network can reach agreement about which transactions are valid and can be added to the ledger very quickly.

## Where is the value of Stellar derived from?

Stellar is useful and valuable because it is a global exchange network, capable of hosting thousands of exchanges between currencies and tokens per second. Exchanging between cryptocurrencies and/or fiat currencies can be a lengthy and expensive process; Stellar makes exchanging swift and cheap. XLM, the asset that will be supported within the Wallet, is used to pay transaction fees and maintain accounts on the Stellar network.

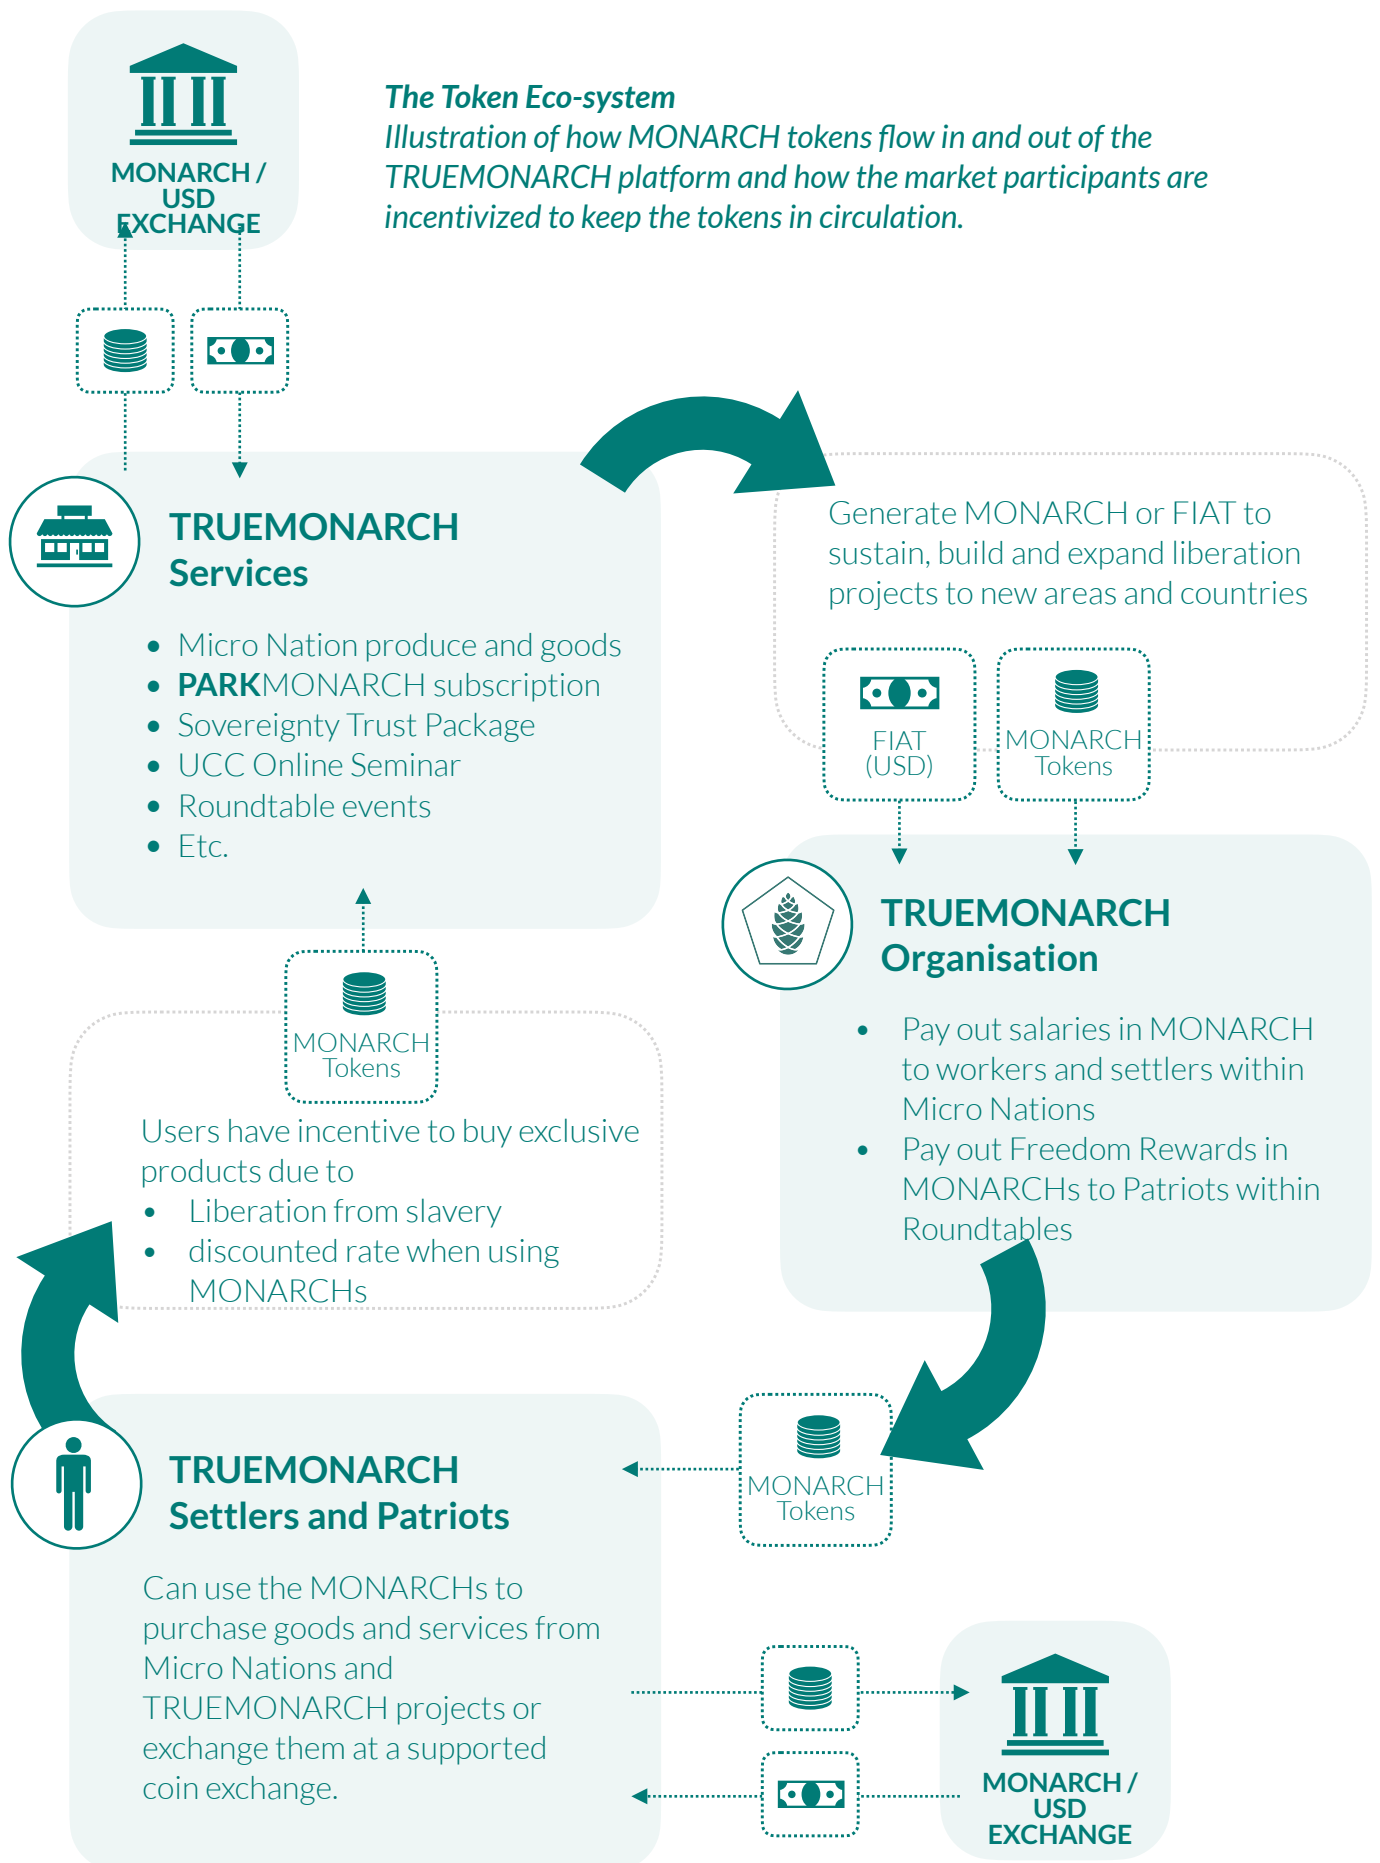

The Quantum Financial System will be backed by precious metals and as such reflect value upon its inherent blockchain technologies and their partners.
